Peters Professional ®
Water Soluble Fertilizer
5-11-26 Hydro-Sol ®

Scotts-Sierra Horticultural Products Co.
The Scotts Company
14111 Scottslawn Road
Marysville, Ohio 43041

In Case of Emergency call:
1-937-644-0011 (USA)
For non-Emergency calls:
1-937-644-0011 (USA)

I. MATERIAL IDENTIFICATION
Product Name: Peters Professional® WSF Hydro-Sol®
Analysis: 5-11-26
Stock Number: 91251

III. FIRST AID PROCEDURES
Eyes: If in eyes, flush with water for 15 minutes holding eyelids open. Get medical attention if irritation persists.
Ingestion: Never give anything by mouth to an unconscious or convulsing person. Have conscious person drink 1 to 2 glasses of water, then induce repeated vomiting until vomit is clear. Call physician.
Skin: Wash with plenty of soap and water.
Inhalation: Remove to fresh air. Treat symptomatically.

IV. HEALTH HAZARD INFORMATION
Summary of Risks

Prolonged or repeated direct contact with fertilizer may irritate eyes and skin. Inhalation of dust may irritate nose, throat, and lungs. Prolonged exposure may cause weakness, depression, headache, mental impairment, anemia, methemoglobinemia, and kidney injury.

Ingestion of product can cause severe gastrointestinal irritation, muscular weakness, and blue-tinged skin (cyanosis). Infants and children are especially at risk for cyanosis. Ingestion of large amounts may result in death.
Tumorigenic, mutagenic, and reproductive effects of potassium nitrate in laboratory animals is reported in the NIOSH Registry of Toxic Effects.

Medical conditions which may be aggravated by contact:
- Skin abrasions and sores.
- Inhalation of dust may aggravate asthma.

**Target Organs:**
- Skin, eyes, respiratory tract, gastrointestinal tract, and central nervous system.

**Primary Entry Route(s):**
- Ingestion, inhalation.

**Chronic Effect(s):**
- Chronic exposure to nitrates may cause weakness, depression, headache, blood changes (methemoglobinemia and anemia), and kidney injury (nephritis).

**Acute Effect(s):**
- Excessive inhalation of dust may cause irritation and coughing. Prolonged skin contact with product may cause mild irritation.

**Ingredients Listed as a Carcinogen**
- IARC Monographs: No
- NTP: No
- OSHA: No

**V. PERSONAL PROTECTION AND PRECAUTIONS**

**Goggles:** None required for routine use as fertilizer. High airborne dust levels or mists of product dissolved in liquid may be irritating; use chemical goggles.

**Gloves:** None required for normal use. If prolonged or repeated use irritates skin, use natural rubber gloves.

**Respirator:** If airborne dust levels are high or irritation occurs, use NIOSH/MSHA approved respirator for dusts, mists, and fumes to reduce exposures to acceptable levels.

**Workplace Considerations**

**Ventilation:** Ventilation and personal protection are recommended whenever dust levels are high or product does not remain intact.

**Safety Stations:** Running water should be available in case material gets in eyes.

**VI. PHYSICAL HAZARD INFORMATION**

Reactivity
Stability: Stable
Hazardous Polymerization: Will Not Occur
Conditions to Avoid: Extreme heat. Contact with strong alkalies, oxidizers, and reducing agents. Contact with fuels and other organic or combustible materials. Active metals such as aluminum and magnesium. Strong alkalies and reducing agents. Chlorine compounds.
Hazardous Decomposition
Products: In a fire, may produce oxides of nitrogen, potassium, sulfur and phosphorus as well as ammonia.
Chemical Incompatibilities: Nitrates are incompatible with strong alkalies and reducing agents, active metals (such as aluminum and magnesium), ammonia, organic, and combustible materials.

Unusual Fire, Explosion and Reactivity Hazards: This product is comprised of materials which are oxidizers in their pure, unmixed forms. It will not burn but can provide oxygen for existing fires and cause combustible materials to ignite explosively. Material decomposes on heating to emit ammonia and toxic oxides of nitrogen, sulfur, phosphorus, and potassium.

In Case of Fire: Evacuate area. Flood with water to cool containers. Apply water from a safe distance to avoid splattering of molten material. Wear self-contained breathing apparatus to fight large fires.

VII. REGULATORY INFORMATION

DOT Classification: Not DOT regulated.

VIII. STORAGE AND SPECIAL PRECAUTIONS

Precautions to be taken in handling and storage
Store in a cool, dry area away from incompatible materials and heat sources. Store away from feed and foodstuffs, as well as household cleaning products. Wash hands with soap and water after handling product. Keep out of reach of children.

In case of spills
Avoid dusting or misting conditions during cleanup. If material is uncontaminated, collect and reuse as recommended for product. If contaminated, put in appropriate container and dispose. Keep spills away from drinking water supplies. After cleaning up spill, flush area with water.

Waste Management/Disposal
Apply as fertilizer to field. If product is contaminated, dispose of in an approved landfill disposal facility, in accordance with applicable federal, state, and local regulations.
